PROJECTS INVOLVED

My Portfolio Site

I created my portfolio site using React utilizing context hooks for light and dark mode, react scroll for smooth scrolling, swiper js for carousel and Email.js for sending mails from the contact form.

<https://rujengelal.github.io/>

Beat Maker

Make beats from a web application anywhere anytime

<https://amazing-colden-f88300.netlify.app/>

URL Shortner

A web application for easy management of short urls

<https://github.com/Rujengelal/URL-SHORTNER>

Zainoo

Tried to replicate a landing page of eCommerce site i found on dribbble using React

<https://sparkling-cuchufli-d5b701.netlify.app/>

Contact Us

My attempt to create a contact page mockup using react

<https://github.com/Rujengelal/demo-contact-us>

Photograph and Video Reconditioning System
